Subject: Application for Assistant Lecturer Position in Software Engineering

Dear HR Manager

I am writing to express my interest in the Assistant Lecturer position in the Department of Software Engineering at Dire Dawa University. I hold a Bachelor of Science degree in Software Engineering with a strong academic record and a deep passion for teaching, research, and mentoring future innovators in technology.

Throughout my studies, I have developed more than 10 software projects, all available on my GitHub portfolio (<https://github.com/abikoy>). These include systems built using C++, Java, HTML, React, Node.js, Python, and database technologies, notably a Comprehensive Resource Management System that highlights my ability to design and implement full-stack solutions.

I am eager to contribute to the university's mission by fostering academic excellence and practical knowledge in Software Engineering. My commitment to continuous learning and student engagement aligns with Dire Dawa University's vision for innovation and quality education.

I would be honored to serve as part of your academic community and contribute to producing competent graduates equipped for the evolving tech industry.

Respectfully yours

HAILE KINFU

SOFTWARE ENGINEER| FULL STACK DEVELOPER

ABOUT ME

Motivated Software Engineering graduate with a strong foundation in web and mobile development. Skilled in React, Next js, Laravel, Node Js , JavaScript, HTML, CSS, (and relational and non relational databases, (like MySQL, MongoDB, PostgreSQL) with hands-on experience building responsive and user-friendly applications. Passionate about fullstack development.

EXPERIENCE

Sep 2023- Feb 2024

Afronex Tech Hub | Dire Dawa, Ethiopia

Software Engineering Intern

- Assisted in developing a fullstack intern registration system using CodeIgniter and MySQL.
- built react projects to enhance frontend and backend skills
- Collaborated with teams on project requirements and version control.

Final Year Project – Resource Management System

Dire Dawa University |2025

- Developed a Resource Management System using React and Node.js, focusing on fullstack implementation.
- Designed RESTful APIs and integrated them with a MongoDB database to manage resources efficiently.

SKILL

- **Frontend:** React,HTML, CSS, Material UI, CSS, JavaScript ,TailwindCSS(basic)
- **Backend:** Node.js, Laravel basic, PHP basics, Python
- **Databases:** MySQL, MongoDB, Firebase, postgresQL
- **Mobile:** React Native (basic) , flutter
- **Tools & Version Control:** Docker (Containerization), Git, GitHub
- Problem-Solving,Communication&Collaboration, teamwork, Critical Thinking
